## New York Stock Market

New York, March 22.—The stock market to-day persisted in its waiting attitude, but instead of the marking time of yesterday, there came almost a halt. The undertone of the marking was strong until the fast half-hour, and the demand, light-aw it was, was filled on a rising scale of prices. The fact of a scantiness of supply of stocks offering for sale was an undeniable fact to-day, which facilitated the cforts of the professionals to move prices upwards on the light accumulations upon which they work accumulations upon which they work we have to be about as apathetic as that here, and the causes of duliness were pretty plain to them all. Besides the April 1 money settlements, a pause is in order, preceding the coming holiday effort.

A large element of the New York

I money settlements, a pause is in order, preceding the coming holiday effort.

A large element of the New York Stock Exchange is seeking to induce the authorities to adjourn the exchange from Thursday over to the following Monday. The intense dulliness of the dealings found explanation largely in that fact.

Such news as came to hand was interpreted in a seuse favorable to values of securities. The average price of 101.28 for the New York, 4-1-1 per cent, bonds proved higher than was expected at the time the market closed yesterday. The new bonds were dealt in "whien issued" at prices above the list in the outside market yesterday, and the older issues all made fractional recoveries, The proportion of the issue taken by foreigners was estimated by competent authorities amongst the international banks as high as 25 per cent, of the total. The result of the sale serves to confirm rather than to refute the comparative disadvantage of present conditions for the enlistment of new capital.

Statements attributed to Western railroad officials kept up confidence in a settlement of the dispute of those companies with their locomotive firement.

companies with their locomotive firemen.

The coppers were firm in expectation of the adoption of the Anaconda plan at to-morrow's meeting. Renorts that the Canadian tariff was working out favorably were helpful in sustaining prices. It was when profit-taking was attempted that the thinnness of the market was made plain.

The tone of foreign subscriptions to the New York City bonds, Rates for time money were shaded.

Bonds were irregular. Total sales, par value, \$3,844,000. United States bonds were unchanged on call.

Total sales of stocks to-day were 513,800 shares.

Cotton futures opened steady at an advance of 466 points on the old crop months and 1473 on the new. Cables were favorable and the weather map was again dry in the Western portions of the cotton belt. The comparatively wide advance of the old crops was due to support offered May on the call by leading bull interests. The apparently reliable report that Liverpool shorts were related to this country Saturday and the threat that they were prepared to ship 50,000 balos more, caused weakness. Frank B. Hayne, who returned to this market from New York yesterday, announced that the leading bull interests were ready to receive any cotton tendered, and that if necessary they were willing to receive the entire Liverpool stock. In the afternoon session very little business was done. The close was teady of the country fluth business was done. The close was teady at a net decline of 267 points. Cotton futures clored stendy. DRY GOODS MARKET.

New Tork, March 22,—Brown and bleached cottons are being offered and sold at very low prices, but the movement has not been up to expectations formed when the recent changes were announced in prices. Rataliers in the metropolitan district are doing a very satisfactory Easter business. Book houses in the men's wear trade are ordering freely, but clothlors are buying little. Yarns are dull. The export inquiry is maintained, but business actually transacted is light.

Briefs to Be Submitted.

In the matter of Detective J. T.
Branch, of Richmond, and his colored assistant, Dennis Roe, who are charged in the Circuit Court of Dinwiddle with an assault committed months ago on Mr. Sheffield, a citizen of the county, it is understood that the cases will be left to the decision of Judge Watson, on briefs to be submitted by the respective counsel, R. H. Mann for the prosecution, and Isaac Diggs (of Richmond, for the defendants. The judge may probably not render his decision until the next term of his court. The cases involve term of his court. The cases involve many interesting features, growing, as they did, out of the disappearance some years ago of the little child Lula Joyner.
